DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tang et al (6228488) for the same reasons as urged in the first office action.

Response to Arguments

Applicant's arguments filed 8-19-03 have been fully considered but they are not persuasive. Applicants argue in the 4th full paragraph on page 2 of their response that "the narrow range of temperature defined in pending claim 1 ... is not addressed or taught by Tang". It is the examiner's opinion that since applicants' range is encompassed by that of Tang a prima facie case of obviousness has been presented and applicants have not presented a showing commensurate in scope with the claims to rebut this presumption of obviousness. The limitations of the dependent claims are conventional and do not render these claims unobvious. It is also noted that a new use of the same art is not a new ground of rejection. See Ex parte Lindner, 105 PQ 245.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
